

# RALLY FOR ECONOMIC SURVIVAL

**CAJUNDOME 07•21•10**

**11am to 1pm**

*Free*

## **Send a Message: Lift The Moratorium! Rally for Economic Survival.**

The Rally for Economic Survival will give a united voice to Louisiana citizens impacted by the federal moratorium on deepwater drilling in the Gulf of Mexico. Together we will send a message to the Obama administration to lift the moratorium for Louisiana's jobs and America's energy future.

The rally will consist of speakers covering a broad section of those affected by the moratorium including Lt. Governor Scott Angelle. There will be entertainment and a video booth for you to send a personal message to the administration.

## **THE FACTS**

- The moratorium has already destroyed jobs and negatively impacted Louisiana's economy.
- The moratorium must be lifted immediately or Louisiana and the Gulf Coast will suffer great economic hardships for years to come.
- If the moratorium is not lifted, hundreds of thousands of people will lose their jobs and the economies of Louisiana and the Gulf Coast will lose billions of dollars.

### **The moratorium has done more than stopped drilling. It has brought to a standstill economic recovery along the Gulf Coast.**

- In one act, the Obama administration has signed the pink slips of tens of thousands of Louisiana and Gulf Coast citizens.
- The financial consequences from the moratorium will eventually create an economic ripple effect that will negatively impact every citizen of the United States.
- Consumers will bare the brunt of the federal drilling moratorium paying more everywhere from the pump to the grocery store.

### **Louisiana is vital to the energy security of the United States.**

- Louisiana has been a reliable and constant energy source for the rest of the United States.
- Thirty-three percent of the domestic oil and gas production comes from the oil rigs in the Gulf of Mexico.
- The people of Louisiana understand that everyone's survival is at risk with the federal moratorium, not just those along the Gulf Coast.
